This is a good mask for blocking out the light when you're trying to sleep. It has foam rubber cups so the mask doesn't sit directly on your eyelids. There is a smooth fabric that goes against your skin.

When you can't sleep because of the light, there's no need to disturb the sleep of the dead! Buy this sleepmask, and leave the voodoo doctor alone!

I love my bucky 40 blinks eye mask. I rode to Florida from Missouri and took long naps with my face mask. It blocks out all the light and lets you zone out, nap and relax. The mask is so soft and comfortable with the bulging eye pockets, letting you blink. I would recommend this to everyone.

this product works wonders you can easily wear in the middle of the day, in lightest place possible and not see a bit of light.

Functional and fabulous! June 4, 2009

This is my second Bucky mask. The first one I bought probably 4 years ago at a Whole Foods store. Just recently, the lining started separating from the printed fabric (this was with nightly use), so I decided it was time for a replacement. My new Bucky mask is doing fine so far. Very comfortable and a good shape/fit to keep all light out. Highly recommended.

Great for sleeping when lights are on! June 11, 2009

I have owned and used other eye masks but this configuration appealed to me because in was less bulky and lighter than what I have used. The outward curve over the eyes is great - no pressure on the eye lid / eye ball at all. And the light weight material and the smaller shape compared to other quilted eye masks, makes it cooler on the face. I would wake up sweating with the quilted eye masks and that is what appealed to me about this one - it covered less of the face and forehead. Anyone who is interested in an eye mask for home or traveling - this is the one to get!Bucky 40 Blinks Mask - Ultralight Eye Mask - Nouveau
